TAKE ACTION FOR ISRAEL!

- Join the Green Zionist Alliance.
- Volunteer with an Israeli environmental nonprofit through GZA Bikkurim.
- Carbon offset your life through the Good Energy Initiative in Israel.
- Attend the Arava Institute for Environmental Studies for a semester.
- Participate in the Hazon Israel Ride.
- Intern with the Green Zionist Alliance.
- Take a gap year before college starts and intern with an Israeli environmental organization through GZA’s Green Track.
- Sign the pledge of the Jewish Climate Change Campaign.
- Organize a fundraiser for the Green Zionist Alliance.
- Learn about Israel’s environment at GreenZionism.org

TAKE ACTION FOR THE EARTH!

- Reduce consumption: Don’t buy what you don’t need.
- Start a recycling program and a community garden at your local synagogue.
- When light bulbs die, replace them with more energy-efficient LEDs or compact fluorescents.
- Turn off the lights when you leave the room.
- When possible, walk or ride your bike instead of driving or getting a ride.
- Eat less meat: 18 percent of global human-induced greenhouse gas emissions come from meat production, according to the United Nations.
- Start Meatless Mondays at home and at school.
- Skip plastic bottled water; instead drink tap water out of a reusable container.
- Use reusable bags instead of disposable bags.
- Borrow books from the library instead of buying them new.
- Take short showers to conserve water.
- Volunteer with your local chapter of the Sierra Club.
- Turn off the TV, the computer and the video games, and go outside!
